Bluefish444 adds KRONOS K8 support for Adobe Creative Cloud with Windows 2020.14.1 Install Package

Multi-channel 4K/UHD output from Adobe Creative Cloud applications with Bluefish KRONOS K8

North Melbourne, Australia, 17 September 2020 – [Bluefish444](#), manufacturer of the professional video industry's highest-quality uncompressed 4K SDI, ASI, Video Over IP & HDMI I/O cards and mini converters, announces support for its [KRONOS K8 multi-channel 4K/UHD SDI card](#) with [Adobe® Creative Cloud®](#) applications via the latest [Bluefish Windows 2020.14.1 installer package](#).

Bluefish's [K8 video I/O card](#) and the [Epoch range](#) are now fully supported within the latest versions of [Adobe Premiere® Pro](#), [After Effects®](#), [Adobe Audition®](#), [Character Animator](#) and [Prelude®](#) - all part of Adobe Creative Cloud - giving [production](#) and [post-production](#) professionals access to the highest quality SDI capture and playback support.

With K8, editors using Premiere Pro are able to playback multiple channels of 4K/UHD SDI from their timeline using [Bluefish's proprietary 12-bit processing](#) engine for maximum quality. The 2020.14.1 update also expands support for Epoch cards to the latest versions of Adobe Creative Cloud applications. Both K8 and Epoch cards have full support for High Frame Rate and HDR workflows, and SDI capture from Premiere Pro.

Bluefish brings unique workflow opportunities to Adobe apps with the highest quality video interface to allow capture and playout of professional video and audio signals. Bluefish provides record workflows with bundled [IngeStore software](#). When using both IngeStore and Premiere Pro together, recording can be carried out in the background while Premiere Pro edits the Growing Files in an [Edit-While-Record workflow](#).

"Bluefish has supported Adobe software for many years now and it is our great pleasure to bring this latest update," said Tom Lithgow, Product Manager at Bluefish. "The combination of Adobe content creation and editing tools, Bluefish hardware and IngeStore software offerings makes for a compelling, cost-effective and unique production suite."

"Editors, artists, and content creators who use Adobe applications like Premiere Pro and After Effects need seamless workflows," said Sue Skidmore, head of partner relations for Adobe video. "Bluefish444 gives production and post-production professionals access to high-quality SDI capture and playback support – making the entire process easier, so they can focus on their creative output."

Bluefish's [KRONOS K8 and Epoch video I/O card range](#), compatible with Adobe Creative Cloud applications, are available from [Bluefish authorised distributors and resellers worldwide](#). To download the latest 2020.14.1 Windows Installer, visit bluefish444.com/support/downloads

About Bluefish444:

Bluefish444, known as the Professionals' Choice for over 20 years, is the manufacturer of the professional video industry's highest quality video I/O interface cards, centralised ingest appliances, live production, archival & streaming software and signal converters. Bluefish products are deployed globally throughout the broadcast, post-production, live event and entertainment, proAV, corporate, military, government, medical and education markets.

KRONOS and Epoch video cards support interfaces for 4K/UHD SDI, ASI, HDMI and Video Over IP I/O and are widely integrated by 3rd-party developers and OEMs via the cross-platform Windows, Linux and macOS SDK. Bluefish supply the IngeSTore Server centralised ingest appliance and IngeSTore and IngeSTream software for live production, archival and streaming workflows.

Bluefish have integrations with the biggest brands in professional video including Adobe, Avid, Nuke, Unity, Unreal Engine, CasparCG, Vizrt, Brainstorm, ClassX, NewTek, Disguise, 7thSense Design and many more, with Bluefish video cards providing the major component of turnkey solutions for production, 2D/3D graphics, display & presentation, multimedia, QC & compliance and live event workflows.

Established in 1998, Bluefish444 is a division and brand name of Bluefish Technologies Pty Ltd, and based in North Melbourne, Australia, and its products are distributed via a global OEM, dealer and systems integrator network. Visit bluefish444.com for more information.
