### **Bluefish444 adds KRONOS K8 support for Foundry Nuke and Nuke Studio 12 with Windows 2020.14.0 Install Package**

*Quality 2K/HD/SD-SDI output from Foundry Nuke products with Bluefish KRONOS and Epoch hardware*

North Melbourne, Australia, 30 July 2020 – [Bluefish444](http://Bluefish444), manufacturer of the professional video industry's highest-quality uncompressed 4K SDI, ASI, Video Over IP & HDMI I/O cards and mini converters, announces support for [Foundry Nuke and Nuke Studio](#) 12 in its latest 2020.14 Windows Installer for KRONOS K8 and Epoch hardware.

Bluefish's [K8 video I/O card](#) and the entire [Epoch range](#) now support 2K/HD/SD-SDI playback within Nuke and Nuke Studio 12, giving post-production 2D/3D compositing and visual effects professionals access to the high quality associated with Bluefish video cards.

Nuke and Nuke Studio 12 offer unparalleled power and performance to meet the needs of modern production work. Nuke's node graph and resolution-independent processing mean the scope of work able to be handled is unmatched. Nuke includes advanced node-based compositing, 3D tracking and model building, conform and review, and allows for easy collaboration across team environments.

With the K8 and Epoch video cards, Nuke and Nuke Studio 12 now have access to the highest quality SDI playback with proprietary 12-bit processing, supporting both RGB and YUV colour spaces. Currently supporting 2K/HD/SD video modes. Bluefish will continue to work with Foundry to update support for the Nuke and Nuke Studio products and will be integrating 4K/UHD support in a forthcoming installer update.

"Bluefish have worked closely with Foundry to update Bluefish hardware support for the Nuke and Nuke Studio products, with 2K and HD resolutions now supported and with future updates bringing UHD and more," comments Tom Lithgow, Product Manager at Bluefish.

"We are happy to hear that Bluefish customers will be able to use the latest versions of Nuke and Nuke Studio with Bluefish's professional-grade hardware," said Christy Anzelmo, Director of Product at Foundry. "It is great to have Bluefish as a new partner and we're looking forward to working with them on future updates!"

Bluefish's [KRONOS K8 and Epoch video I/O card range](#), compatible with Foundry Nuke and Nuke Studio 12, are available from [Bluefish authorised distributors and resellers worldwide](#). #### **About Foundry**

Foundry develops creative software for the digital design, media and entertainment industries. With a 20-year heritage and a portfolio of award-winning products, Foundry advances the art and technology of visual experience in partnership with creative leaders around the globe.

Clients and partners include major feature film studios and post-production houses such as Pixar, ILM, MPC, Walt Disney Animation, Weta Digital, DNEG, and Framestore as well as automotive, footwear, apparel and technology companies such as Mercedes, New Balance, Adidas and Google. Foundry partners with these companies to solve complex visualization challenges to turn incredible ideas into reality.

The company's products are used to create breathtaking visual effects sequences on a wide range of feature films, video-on-demand, television and commercials. Foundry software was integral in the making of every VFX Oscar-winning film, award-winning TV shows and commercials for more than a decade.

Founded in 1996, Foundry is headquartered in London, with over 300 employees and a presence in the US, China, Japan, Australia and Europe. In 2019, the London Stock Exchange named Foundry one of the “1000 Companies to Inspire Britain.” It regularly features in The Sunday Times’ Tech Track as one of Britain’s fastest-growing private technology companies.
