### **BLUEFISH444 EXPANDS COMPATIBILITY WITH STREAMSTAR SW**

*Multi-channel HD/SD I/O support for Epoch | Neutron, 4K Neutron and Supernova CG*

North Melbourne, Australia, October 9, 2017 – [Bluefish444](http://bluefish444.com), manufacturer of the professional video industry's highest-quality uncompressed 4K SDI, ASI, Video Over IP & HDMI I/O cards, and mini converters, announces expanded compatibility with [Streamstar SW](http://streamstar.com) to include [Epoch | Neutron](#), [Epoch | 4K Neutron](#), and [Epoch | Supernova CG](#) I/O.

Streamstar SW is the most advanced, innovative and versatile live production and streaming software, enabling users to easily produce and stream professional, live, multi-camera video productions. Streamstar has a broad range of productivity features, unmatched speed and the revolutionary, intuitive, touch-screen user interface, allowing for remarkable speed and ease of use.

Bluefish444 and Streamstar have worked together to qualify additional Bluefish444 video I/O cards with Streamstar SW, which now supports the entire [Epoch I/O card range](#). Streamstar with Bluefish444 Epoch gives users a high quality, multi-channel SDI live production and streaming solution.

"Streamstar are a global leader in the live production and streaming market," said Craig Mott, Managing Director of Bluefish444. "With Streamstar now supporting a broader range of Bluefish444 video cards, their customers can choose the highest quality SDI I/O with more flexibility."

"Bluefish444 is regarded as one of the best graphics interface card manufacturers. Their configuration options enable our customers to do exactly what they want without compromising anything. We are happy to include Bluefish444 among our supported I/O cards, and will continue in our collaboration, which definitely is a bonus for our customers," states Michal Ivanič, CTO at Streamstar.

Bluefish444's Epoch video I/O card range, compatible with Streamstar SW, is available from [Bluefish444 authorised distributors and resellers worldwide](#). For more information on Bluefish444's integration with Streamstar, please visit [bluefish444.com](http://bluefish444.com)

#### **About Bluefish444:**

Bluefish444 is the manufacturer of the industry's highest-quality uncompressed 4K SDI, ASI, Video Over IP & HDMI I/O cards for the Windows, macOS and Linux operating systems. Its video cards are used not only in traditional broadcast and post-production, but also in emerging workflows such as live events, immersive graphics, augmented reality and Video Over IP. Bluefish444 has a growing presence in industries adopting professional video such as the medical, automotive, defence and mining industries.

Bluefish444 cards have been used on award-winning feature films, commercials, music videos and sports events worldwide. Bluefish444's range of video cards are incorporated in video servers, encoders, decoders and character generator solutions by numerous 3rd party OEM manufacturers, in addition to other niche & mainstream applications.

Founded in 1998, Bluefish444 is a division and brand name of Bluefish Technologies Pty Ltd., which is based in North Melbourne, Australia. Its products are distributed via an extensive sales channel of OEMs, dealers, and system integrators globally. For further information, visit [www.bluefish444.com](http://www.bluefish444.com)
